

Anthony Terrezza & Triple Espresso

Rock/Jazz/Funk/R&B

Anthony Terrezza & Triple Espresso! This all-star line-up is available as a trio, 4 or 5 piece band! We perform uniquely arranged cover songs and original music from my CD's, some co-written with hit songwriters!

You have probably seen me play with one of a dozen high-profile bands in the area, including my own band, **Anthony Terrezza & Triple Espresso!**

BIO: Sometimes referred to as a 'musician's musician' who follows his passion for integrity in all aspects of music. With three self-produced original albums under his belt, and a fourth one coming out soon, he's an accomplished creator, arranger, engineer, performer and producer; with a musical style that combines jazz, fusion, rock, funk and R&B. Anthony performs at concert venues around the country including the **NAMM Show** in Anaheim, **KSBR Birthday Bash**, the **Coach House** in San Juan

Capistrano, the **Jacksonville Jazz Festival**, the Laguna Beach **Festival of the Arts**, **Mozambique**, **Campus Jax** and other great venues.

As for his style, Terrezza's playing has been referred to as "mesmerizing" and his songs as "electrifying, high-vibrational, spirit-based and inspirational." Many have compared his style to Steve Lukather, Larry Carlton, Toto, Steely Dan and Ambrosia.

"Cool Kat with a deliberate sound. I have listened to and watched Anthony dozens, if not hundreds of times and what I love about his style is that it is crisp, distinct, clean and fresh. Anthony has a unique technique for allowing you to hear the individual notes yet the ability to blend those notes creating a great sound in any genre. You will enjoy the music created by one very talented individual. A true musician and artist who is one with his instrument, that is his guitar." Arthur

Terrezza is also known as a professional with 'chops': he's a go-to guitarist, bassist, and vocalist with a wide range of abilities—He has worked with **Richard Elliot & Tower of Power** in a **VH1 music video**, and developed and recorded unique guitar parts that have been heard on **TV Movies** (such as Discovery Channel, NBC, ABC & TV Commercials, Radio Jingles, Theme Songs for Talk Radio shows), and **Children's Albums** (Greg & Steve).

Born and raised in New Jersey, a young Terrezza was captivated by his father's passion for music. His father was an accomplished and recorded vocalist and his grandfather, who was born in Italy, spent his life as a concert violinist. In the decades since moving to California, Anthony lives by the convictions of his forefathers as he continues to explore and cultivate the highest quality in songwriting, concert performances, studio sessions, engineering and producing.

His history as a session player, producer and performer enable him to bring depth and dimension to every project and performance.

Please go to my website for videos, pictures and other information. I hope to perform at your venue in the near future!
