Urban Jazz News

Guitarist, bassist, vocalist, songwriter composer and producer Anthony Terrezza's latest CD Return To Spirit is a light jazz recording that captures all aspects of contemporary jazz ranging from melodic rock to blues. Return to Spirit is a light and fresh compilation showcasing the freedom of spirit and is a reflective work on the "spirit within" that for Terrezza is "fueled, impassioned and comforted by music". Terrezza seems to be an artist that is able to transport one to a luminous and distant place and able to take the listener to a place of peace, similar perhaps of going for a nice long run in the thin crisp mountain air or out for a sail in the cool and salty sea breeze, always ending up in peaceful paradise.

Return to Spirit simply grabs hold of the moment and gives it a sense of time without end. Notable cuts on the disc include: Seventh Ray, a free-flowing mellow tune with a new age feel; Thunder, a serene and calm, yet somewhat upbeat fusion jazz like cut; Return to Spirit, the peaceful c-jazz title track; Endless Journey a cosmic light rock vocal track and Planetary Blues a vocal bluesy vibe. Return to Spirit is a disc that will allow you to relax and find the tranquil peace within.
